PROFESSIONAL SUMMARY

Aspiring Full Stack Web Developer with strong frontend and backend development skills, hands-on project experience, and a creative problem-solving mindset. Passionate about building scalable web applications using modern tools and AI. Seeking to join a dynamic environment to continuously grow and deliver impactful technical solutions.

SKILLS

Frontend	HTML5, CSS3, JavaScript, TypeScript, React, Tailwind CSS, Bootstrap, Three.js, Figma
Backend	Node, Express, Django, PHP
Databases	PostgreSQL, MongoDB, MySQL, SQL
Programming	Python, Java, C, C++, TypeScript
Tools & AI	Git, VS Code, Postman, Vercel, Render, ChatGPT, GitHub Copilot, Canva, Claude
Creative	Video Editing, Graphic Designing, Content Creation, Social Media Handling

EXPERIENCE

Implementation Executive Oct 2025 - oct 2026
Pathfinder Enterprises Solutions Pvt. Ltd. *Remote*

- Managed the end-to-end implementation, configuration, testing, and deployment of AI-based retail software solutions, conducting comprehensive user training to ensure seamless technology adoption.
- Facilitated smooth client onboarding by leading requirement gathering, system setups, and go-live activities, while providing dedicated post-implementation support.
- Troubleshot complex application issues, collaborating closely with QA, product, and project management teams to validate fixes and drive continuous application enhancements.
- Handled critical application configurations, database management activities, and payment gateway integrations, ensuring rigorous quality control and maintaining detailed technical documentation.

Full Stack Web Developer 2024 - Present
Freelance *Remote*

- Designed, developed, and deployed custom full-stack web applications, corporate business websites, and scalable e-commerce platforms tailored to unique client requirements.
- Managed complete software development lifecycles, encompassing requirement analysis, intuitive frontend development, robust backend integration, database architecture, testing, and deployment.
- Developed highly responsive user interfaces and seamlessly integrated RESTful APIs, secure authentication systems, payment gateways, and third-party services to expand platform capabilities.
- Collaborated directly with clients to thoroughly understand their business needs, propose effective technical solutions, and deliver high-quality, production-ready web applications.

PROJECTS

Kamyaab Academy kamyaabacademy.com

- Architected a high-availability, three-tier educational platform capable of concurrently supporting over 1,000 active users without performance degradation.
- Designed multi-tenant dashboards with Super Admin and Teacher panels to streamline course management, scheduling, user tracking, and role-based access control.
- Integrated secure Google OAuth 2.0 and automated Google Meet API connections for seamless online class creation and delivery.

- Structured highly efficient PostgreSQL database schemas to optimize student records, courses, attendance, and overall platform data integrity.

VNB1 Web Platform vnb1.in

- Architected and deployed a custom full-stack web platform from scratch to establish a highly professional, robust, and responsive online presence.
- Managed the complete infrastructure setup, including end-to-end domain configuration, SSL certificate implementation, and secure hosting deployment to guarantee optimal site reliability and performance.

Habeeb Watch House habeebwatchhouse.in

- Built and deployed a fully functional, responsive e-commerce website tailored specifically for a retail watch business.
- Implemented dynamic product catalogs, streamlined product management, and intuitive shopping cart functionality with a mobile-first design approach.

Ai Edition aiedition.in

- Engineered a modern e-commerce platform focused on providing streamlined product discovery, efficient product management, and secure online checkout workflows.
- Optimized the overall purchasing experience and shopping workflows to significantly reduce user checkout times.

Vexa AI Assistant

- Created a sophisticated, voice-controlled artificial intelligence assistant capable of executing over 50 system-wide laptop commands hands-free.
- Engineered advanced speech capabilities to facilitate natural, multi-language voice conversations and dynamic task automation.

EDUCATION

Bachelor of Computer Applications (BCA), Islamiah College, TN Aug 2022 - May 2025
Score: 83% (First Class with Distinction)

Diploma in Full Stack Web Dev., CSC Computer Software College, TN Jan 2024 - Jan 2025
Score: 80%

CERTIFICATIONS & ACHIEVEMENTS

- **Certifications:** Python (Infosys), Web Design (Itronics), Web Dev Diploma (STP), Social Media Marketing (HP Life), ChatGPT (Learn Prompting).
- **Achievements:** 2nd Prize Startup Short Film Contest (Ignite 25), Department Topper HSE, Proficiency Award - Islamiah College (2024).
